

## EVERYONE

DESERVES A WELL DESIGNED PLACE TO LIVE, WORK AND PLAY.

### Rendezvous Center Grand Opening

Client: Koelbel and Company  
Builder: Big Valley Construction

KEPHART is thrilled to announce the recent grand opening of Rendezvous Center. Located in the heart of Winter Park, Colorado, the mixed-use space is part of the town's initiative to further their growth, while also creating inviting places for residents and visitors to gather and make lasting memories. The space houses the town's Visitor Center, Chamber of Commerce, and the Rendezvous Sales Center, as well as two for-sale flats and five townhomes. In 2019, the project won an HBA of Metro Denver MAME Award for Best on the Boards Community.

The third floor rooftop deck provides sweeping views of the mountains and the adjacent Hideaway Park, where the town hosts festivals and farmer's markets.

The contemporary architecture of the townhomes with pitched roofs, expansive glass and a rich mix of materials provides a beautiful backdrop for the park.
